CONSENT TO TREAT

_____ I give permission to all health care providers involved in my care to administer such examination, treatment, testing and procedures as they deem necessary in the course of my care.

RELEASE OF INFORMATION

_____ I understand that as part of my health care, health care providers create and maintain health records that may include my health history, symptoms, examination and test results, diagnoses, treatment and any plan for care including future treatment. I understand that this information serves as a basis for planning my treatment and care and is a tool for routine health care operations including assessing quality and reviewing competency of our staff and/or other health care providers.

FINANCIAL RESPONSIBILITY

_____ I agree to pay all charges for my health care treatment. Payment for all services and medicinary items is due at the time of the visit. If charges to my account are not paid after reasonable notice, the account shall be deemed delinquent. In the event that I default on payment of my account, I agree to be responsible for collection fees and interest due on amounts in default. If the debt is assigned to a third party for collection, I agree to be responsible for collection fees and interest due on amounts in default. The doctors at The Clinic are not contracted providers with any insurance plans. If your plan has coverage for out-of-network naturopathic care we will provide you with the appropriate paperwork and coding to submit your own insurance claim.

APPOINTMENT CANCELLATION POLICY

_____ There is no charge if your appointment is cancelled 24 hours in advance of your scheduled appointment time. Please remember that appointment times are set aside for you. If you are unable to keep your appointment, kindly let the clinic know so that someone else may use this time. *Appointments missed or cancelled without 24-hour notification will be charged a Missed Appointment Fee.*

NOTICE OF PRIVACY PRACTICES ACKNOWLEDGEMENT - HIPPA

The Department of Health and Human Services has established a "Privacy Rule" to help insure that personal health care information is protected for privacy. The Privacy Rule was also created in order to provide a standard for certain health care providers to obtain their patient's consent for use and disclosure of health information about the patient to carry out treatment, payment or health care operations.

As our patient we want you to know that we respect the privacy of your personal medical records and will do all we can to secure and protect that privacy. When it is appropriate and necessary we provide the minimum necessary information to only those we feel are in need of your health care information and information about treatment, payment or health care operations in order to provide health care that is in your best interest.

We also want you to know that we support your full access to your personal records. We may have indirect treatment relationships with you (such as laboratories that only interact with physicians and not patients), and may have to disclose personal health information for purpose of treatment, payment or health care operations. These entities are most often not required to obtain patient consent.

You may refuse to consent to the use or disclosure of your personal health information, but this must be in writing. Under this law, we have the right to refuse to treat you should you choose to refuse to disclose your Personal Health Information (PHI). If you choose to give consent in this document, at some future time you may request or refuse all or part of your PHI. You may not revoke actions that have already been taken which relied on this or a previously signed consent.

Patient's Representative(s): (the following must be filled out)

* I hereby authorize the following individuals to have access to my healthcare information:

_____, Relationship to Patient _____
_____, Relationship to Patient _____

TERM

This consent will be in effect for one year from the date signed.

Patient Compliance Assurance Notification

To our valued families and patients:

The misuse of Personal Health Information (PHI) has been identified as a national problem causing patients inconvenience, aggravation and money. We want you to know that all of our employees continually undergo training so that they may understand and comply with government rules and regulations regarding the Health Insurance Portability and Accountability Act (HIPAA) with particular emphasis on the "Privacy Rule". We strive to achieve the very highest standards of ethics and integrity in performing services for our patients.

It is our policy to properly determine appropriate use of PHI in accordance with the governmental rules, laws and regulations. We want to insure that our practice never contributes in any way to the growing problem of improper disclosure of PHI. As part of this plan, we have implemented a Compliance Program that we believe will help us prevent any inappropriate use of PHI.

We also know that we are not perfect! Because of this fact our policy is to listen to our employees and our patients without any thought of penalization if they feel that an event in any way compromises our policy of integrity. More so, we welcome your input regarding any service problem so that we may remedy the situation promptly. Thank you, for being one of our highly valued patients!
